

# CALCIUM LIGNOSULFONATES

## TECHNICAL DATA SHEET

**Product:** Calcium Lignosulfonates

**Chemical Name:** Lignosulfonic acid

**CAS-Number:** 8061-52-7

#	PARAMETER	VALUE
1.	Appearance	Powder dark brown
2.	Insolubles %	Max 0.5
3.	Dry substances content, %, min	93.0
4.	Moisture %	6
5.	pH value, (+/-2)	7.0
6.	Packaging	600 Kg Bag

**Application:** Can be used in the cement and concrete industries as a cement softener and binding material, in foundry, in the chemicals field, in the oil industry in drilling, in ceramics industry, and in several other applications.

**Disclaimer.** All information to be used as reference only. Final confirmed information will be provided in the sales contract/proforma invoice for specific orders. For safety information please always refer to the latest MSDS or other appropriate information source, concerning the material in question.
